Can you think of times in your life when things aren't congruent?

When you think you are supposed to be going one way, but find yourself going another?

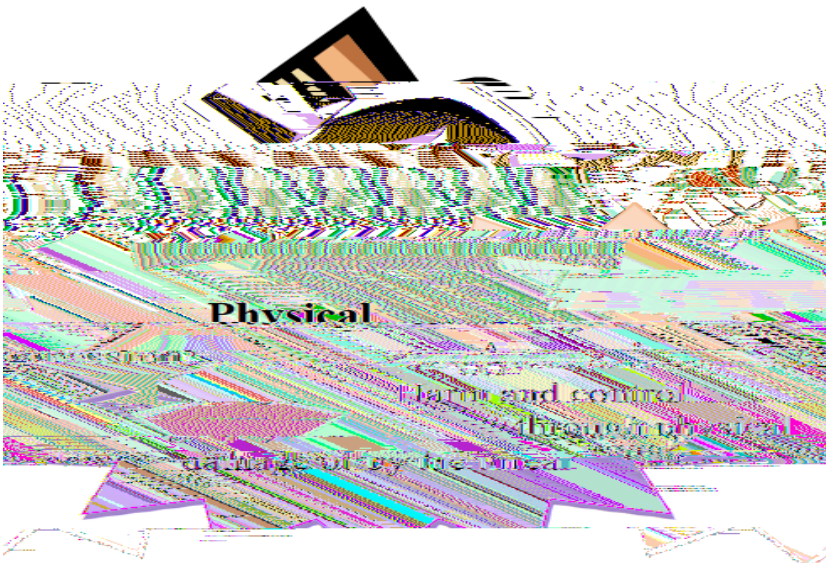

Congruence: All going the same direction, using the same language, meaning the same thing.

SEL is a core life skill that every child needs to succeed in school and in life. SEL is a process, not a product. It is a set of skills that help students understand and manage their emotions, set and achieve positive goals, feel and show empathy for others, establish positive relationships, and make responsible decisions.
